IN THE ABSTRACT

Please replace the Abstract as filed in its entirety with the following:

A method and apparatus for insuring that a digital storage device will only be able to download or play files that were obtained from sources deemed by the manufacturer of the device or by an overseeing organization to be acceptable. The files are downloaded in an unencrypted form and then encrypted prior to storage in a memory. The stored encrypted files are unencrypted prior to being transferred from the memory to the digital storage device.
